NATIONAL PARLIAMENT

Approval of Laws

as of 30 January 2009

Approved by the National Parliament	2009

The following laws were approved at the National Parliament during January 2009:

1. General Budget of the State and state plan for 2009

Highlights

- The **National Parliament** reassumed on 5 January 2009 and was fully concentrated on the State budget analysis which started on 14 January and ended on 30 January 2009
- In his speech at the National Parliament on 14 January 2009, the Prime Minister explained that as the year of Infrastructure, the “2009 State General Budget responds to the urgent needs of the Country: to accelerate administrative and legal processes leading to national reconstruction and to the reduction of poverty, to enhance economic growth and to enhance national development”.
- The budget for 2009 was approved with total state expenditure of USD 680.8 million, of which USD 91.1 million will come from non-oil revenues. Considering that the Estimated Sustainable Income (ESI) was estimated at USD 407.8 million, the Government will withdraw an additional USD 181.2 million, which is above the 3% benchmark of the ESI from the Petroleum Fund. As 2009 will be focused on infra structure, USD 118.3 million will be allocated for the building of essential infrastructure such as bridges, roads, airports and ports, water supply, schools, health, agricultural, and municipal installations, warehouses for food security, patrol boats for maritime security and improving security posts in the border and the electricity supply.
- The Budget was finally approved in Friday 30 January 2009 with 40 votes in favour, 20 against and 4 abstentions out of 64 members present (absence of Mr. Manuel Tilman from KOTA).

- On the overall, the debates were conducted properly with observation of the regiment. The main concerns raised by the opposition were the following: lack of clear plan and guidelines, the necessity to have a pro-poor approach, the capacity to efficiently execute the proposed budget and the worry to not create dependency of Government subsidies as well as the need to fight against corruption. Furthermore, the members of the Parliament also discussed on the increase of salary and wages and implementation of the career regime, the impact of the establishment of a Heavy Oil Power Station to afford 24/7 electricity, the execution of the budget for Civil Society, the establishment of municipalities. In order to properly monitor and evaluate the Government's activities, it was emphasized the need of submission of execution reports.
- In the point of view of the transparency and accountability of the State institutional process, it is worth to mention that the debates were broadcasted live on the National Radio and Television.
- For more details on the discussions at the National Parliament, please request to DGSU and Political Affairs Unit-PAU. For a better understanding, the reports from the Office of the Prime Minister and Commission C are also worth reading.

Dispatch no. 1/2007, of 31 August 07 Legal Rules in the Drafting of Normative Acts by the IV Constitutional Government

B

BILL

Text presented by the Deputies or Parliamentary Groups to the National Parliament for approval.

C

CONSTITUTIONALITY

Conformity with the laws and further acts of the State and of the local power with the Constitution.

COUNCIL OF MINISTERS

Ministerial reunion presided over by the Prime Minister.

D

DECREE-LAW

Diploma issued by the executive body (Government). The text of the respective Decree-Law is presented and approved in Council of Ministers, after which it is sent to the President of the Republic for promulgation.

DRAFT LAW (PROPOSAL OF LAW)

Text presented by the Government to the Parliament, so that the latter can pronounce on it.

G

GOVERNMENT

Maximum instance of executive administration of the State. The set of executive leaders of the State is normally called *government*, *cabinet* or *Council of Ministers*.

I

ILLEGALITY

Quality of that which is illegal or contrary to the law.

INTERNATIONAL TREATY

Agreement resulting from the convergence of wills of two or more international law subjects, formalized in a written text, with the purpose of producing legal effects in the international plan. In other words, the treaty is a means through which international law subjects – mainly national States and international organizations – determine rights and obligations between themselves. The States and international organizations (and other international law subjects) that celebrate a certain treaty are called “Contracting Parties” (or simply “Parties”) of this treaty.

J

JORNAL DA REPÚBLICA

Official newspaper of the Republic of Timor-Leste, which publishes the laws so that they may enter into force. It is published by the National Printing House in two series: Laws, Decree-Laws, decisions by the Constitutional Court and other relevant texts are published in Series I; regulations, public contracts, etc. are

published in Series II. As in many other countries, legislative texts enter into force only after being published.

L

LAW

The word law can be used with three different meanings, according to the intended scope. In the broadest sense, law is every legal rule, written or not, and covers the habits and all rules formally produced by the State. In a broad sense, law is the written legal rule, excluding legal habit. *In a strict sense, it means the normative act by excellence, issued from the National Parliament.*

LAW-MAKING

Science that studies the ways of designing and writing normative acts. In colloquial terms, law-making is the art of drafting laws well, in the sense that it substantiates a set of rules – law-making rules – the purpose of which is to contribute to a good drafting of laws.

LEGAL PROCEDURES

Set of legal requirements for starting a process.

LEGISLATION

Set of legal precepts regulating a certain matter.

LEGISLATIVE ACT

Manifestation of the will with strength of law and meant to produce law effects. It is one of the three sovereign powers of the State, responsible for the drafting of laws.

LEGISLATIVE COMPETENCE

Legal capacity for drafting laws, decree-laws, regulations and decrees.

LEGISLATIVE POWER

Power to legislate, create and sanction laws. The goal is to draft law rules with general or individual scope that are applied to all society, in view of satisfying the needs of the pressure groups; public administration; society. The legislative power elementary functions include that of overseeing the executive power and voting on budget laws.

N

NATIONAL PARLIAMENT

Assembly of representatives elected by the citizens in democratic regimes, normally holding legislative power.

O

ORGANIC LAW

Law on the organization and operation of the Government and respective Ministries. It covers the general dispositions and sets up the main functions and actuation instruments.

P

PUBLIC ADMINISTRATION

In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration

is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. Under the operational aspect, Public Administration is the perennial and systematic, legal and technical development of the services belonging to the State, benefiting the whole.

PROMULGATION

Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfil some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability.

PROJECT OF LAW

Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it.

R

RATIFICATION

Confirmation, authentication of an act or commitment: *ratify a Treaty*.

REPEAL

Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms.

REVALIDATION

Reposition in force of a previously revoked law (or legal precept).

S

STATE

Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory".

STATE GENERAL BUDGET

Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration.

U

UNCONSTITUTIONALITY

Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules).
