Agenda

The first Expert Meeting of the project on “Implementing the United Nations Global Counter-Terrorism Strategy in Central Asia” will cover Pillars I and IV of the Strategy

- **Pillar I: Measures to address the conditions conducive to the spread of terrorism**
Member states committed, in the Action Plan of the UN Global Counter-Terrorism Strategy (September 2006), to undertake measures aimed at addressing the conditions conducive to the spread of terrorism, including prolonged unresolved conflicts, dehumanization of victims of terrorism in all its forms and manifestations, lack of the rule of law and violations of human rights, ethnic, national and religious discrimination, political exclusion, socio-economic marginalization and lack of good governance, while recognizing that none of these conditions can excuse or justify acts of terrorism.
- **Pillar IV: Measures to ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism:** Member States committed to adopting measures to ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism. They further resolved to take measures aimed at addressing violations of human rights, and to ensure that any measures taken to counter terrorism comply with their human rights obligations. They recognized that effective counter-terrorism measures and the protection of human rights are not conflicting, but complementary and reinforcing goals.
